

FUA Representative Does Well at U. of A.

Jack Dubaz, whose home is in the Ross district, north of Irma, was chosen by the Ross and Alma Mater FUA groups to attend Farm Young People's Week at the University of Alberta, June 8 to 18.

Jack seems to have made full use of the opportunity given him, and in spite of the fact there were about 200 young people between the ages of 18 and 27 enrolled, and a number of these were Old Graduates while others were delegates from Scotland and Ontario, our Irma lad's achievements total up like this:

Won Provincial Wheat Board Scholarship.
1st prize for general proficiency.
1st prize for best essay.
1st prize for public speaking.
1st prize for cattle judging.
Honorable mention in grain judging.

Jack attended all lectures, etc., and enjoyed the various professors very much. He says the main purpose of Farm Young Peoples Week is to form character and the right attitude among the young folk and to open up new fields for exploration rather than to attempt a set course of instruction that would just fit into the few days spent at the U. of A.

Jack is of an enquiring turn of mind and talked to the professors after classes, gathered what literature and books he could and generally made the most of his chance. One professor gave him a book on soils and a very recently completed soils map of the surrounding district where he lives.

We are sure the Ross and Alma Mater FUA groups are more than satisfied with their delegate's report which was given on Tuesday last.

Mrs. N. Slipper Passed Away

Mrs. Sarah Ellen (Nellie) Slipper, wife of Thomas Slipper of Wellington, passed away in Nanaimo hospital at noon June 26, aged 79 years and six months.

Born in Zephyr Scott Township, Ont., Mrs. Slipper was a dressmaker till moving to Portage La Prairie where she trained for a nurses degree later moving to Alberta where most of her family were. After her marriage to Mr. Slipper they lived on his farm north of Irma until 11 years ago when they retired to Wellington Vancouver, Island. Well known to many at the Lagoon as well as Wellington and Nanaimo.

She leaves to mourn her passing besides her husband, one brother, Steve Thomson of Vancouver and one sister Mrs. F. C. Lukens of Wainwright, one nephew, three nieces and a host of friends.

Funeral services will be held on Monday afternoon at 2:30 from the Westwood chapel of Flowers. Interment will take place in the family plot Nanaimo cemetery. No flowers by request, please.

Northern Nuggets

Miss Edith ones is visiting at her home after finishing her term in a Calgary school.

Miss Francis Bars is leaving shortly on a month's trip to New York and Eastern Canada. Good luck Francis, and have a wonderful holiday.

Mr. Louie Larson has been away enjoying a good fishing trip. Don't forget the sports day put on by the Buffalo Coulee W.I. and the Albert ball team. It's to be held at the picnic grounds on July 11.

Irma Ball Teams Show Fine Form

Irma ball players really did the old home town proud on July 1, both at Vegreville and Wainwright. The Irma seniors won top money at Vegreville, defeating Lloydminster, Hairy Hill and Mundare in that order. We understand the game with Lloydminster was a real toughy and ran into 10 innings before the Irma boys could call the game their own, but the other two wins came quite easily, with Irma out in front with a big margin.

At Wainwright the Irma 15 and under softball team won first defeating Wainwright and Heath. The Irma 21 years and under hardball team defeated Vermilion 5-3 but lost first money to Wainwright 3-1. Albert softball team won 2nd at Wainwright by defeating Green shields and Gilt Edge before losing the finals to CNR.

Glen-Coa Gleanings

Mr. and Mrs. S. Nilson and Erling left the first of the week for a motor trip to Washington and B.C.

Mrs. Joe Gulbraa also left on Monday. She went to Reno, Nev., to visit her sister there.

Miss Anne Reiffenstein of Husar is visiting Evelyn Erickson this week.

A group of Leaguers from Edmonton will be at Sharon next Sunday morning, July 6 at 11 a.m. Little Caroline Lyseg of Westaskin is visiting her cousins, Esther and Evelyn Fluevog.

Luther League Surprise Party
On Friday evening, June 27, about 70 people gathered at the Likness home to surprise the recently married young couple, Lawrence and Doreen. The young couple and their new young guests enjoyed some energetic and novel games on the lawn. Then Mrs. Raasak, on behalf of the Luther League and assembled friends, presented them with a beautiful rug. Both Lawrence and Doreen thanked their friends for the lovely gift and many good wishes. The happy evening came to a close after a bountiful lunch. On Saturday afternoon Pastor and Mrs. Lawrence Likness started out on their trip east to Fort Arthur.

Jarrow News

Miss Julia Trachetski of Round Hill has been a guest at the Matthews home for a few days.

Mr. and Mrs. E. Ronjom are rejoicing over the birth of a daughter at the Viking hospital on June 30.

The J. Rovencampers are sporting a new Studebaker.

Mr. and Mrs. M. McCune and family accompanied by Mr. Grant were callers around town on Monday. The McCunes are located at Milk River where Mel is manager of one of the Jenkin's stores. Our sympathy goes out to him at this time on the death of his father.

Mr. and Mrs. Joe Miciak of Bruce were recent visitors at the W. Orachski's. Evelyn Orachski came up from Wainwright and spent Sunday with the home folks.

Bats closed their term of school with a very successful picnic. A goodly crowd turned out to enjoy the races and ball games. Lots of ice cream and a real banquet climaxed a good day.

The W.A. will meet at the home of Mrs. G. Theroux on Tuesday, July 8. Hostesses, Mrs. J. B. Campbell and Mrs. Theroux. Everyone welcome.

Mr. and Mrs. Barry Holt and sons are visiting around the Batts district.

The pines are going. They fell before the cutter's bar. A line of beauty proud they stood. A landmark in the neighborhood. Batts mourns her pines.

Mrs. Donevan and two boys of Edmonton are visiting with their parents, Mr. and Mrs. Belton.

Mr. and Mrs. Bragg and family attended the Ponoka stampee.

Thieves broke into Sonoff's store on Saturday night and took off with the cash register and a few cartons of cigarettes.

Achievement of Irma CGIT For Past Term

Sold Christmas Cards at a profit. Took first aid course (bandaging). Reaffiliated with the WMS in a formal ceremony.

Carried out a community project by making artificial flowers for several shut-ins.

Made a flannelgraph to be used in the Sunday School.

Conducted a Vesper service.

Canvassed for Christian Youth Week.

Took part in the World's Day of Prayer service.

Fulfilled chevron requirements.

Helped mother-daughter banquet.

Helped Mother's Day Tea.

Helped a Home Cooking Sale.

The following parties were also enjoyed.

Hallowe'en, New Year's Valentine's Skating, Scavenger Hunt, Initiation.

Camps for this summer.

Czar Lake - majority of the group plan to attend this camp.

Sylvan Lake (Camp Council) - provincial camp for two representatives from the group to attend.

Skeleton Lake, Ont. - a national camp, which one girl from the group will attend as a representative from Alberta.

All in all, the girls had a very successful and delightful term. They are looking forward to the camps which will be the climax. Many thanks are also due Mrs. Darks who capably led them for the past term.

Easterly Echoes

(Too late for last week)

Mr. and Mrs. T. Clark were guests of the latter's cousins, Mr. and Mrs. H. Morse over the weekend.

Mr. and Mrs. M. Enger motored to Edmonton over the week-end. While there Mrs. Enger attended a luncheon in Robertson United Church for Mrs. J. Halpern, Dominion Council W.A. president.

The CNR football team of Wainwright emerged winners in the football contest at Paschenale sports held last Friday. This sports week was the usual big success and closed with a big dance in the school.

The Roseberry Rural Electric C-o officials are busy on organization work in the community. They report very good progress.

We see Mr. A. Burton of Vancouver, B.C., visiting his family in the district.

Miss Alice Enger of Wainwright was a visitor at the home of Mr. and Mrs. Allen Taylor.

Mrs. Pinnock of South Wigston, Leicester, England, is visiting her cousin Mrs. R. Dempsey for a week before going on with Mr. and Mrs. Dempsey to the Calgary Stampede and Banff.

Mr. and Mrs. Lowell Morse of Midland, Mich., and family are visiting the former's brother Mr. Harold Morse and sister Mrs. E. Allen.

Miss Joy Enger is spending her holidays at her parents home. Mr. and Mrs. M. Enger.

Miss Elfrida Fenton of Lamont spent a few days at the home of her parents, Mr. and Mrs. E. Fenton.

The Battle River W.I. will meet at the home of Mrs. R. King. Roll call, "An Idea for a Roll Call." Mrs. W. Sanders draw, and hostess Mrs. R. King.

Mr. and Mrs. S. Fenton and family left for a motor trip to Penicton, B.C., where they will visit Mr. and Mrs. E. Budgeon. They also plan to attend the curlingspiel at Nelson.

POOL DELEGATE ELECTION

An election for the position of Wheat Pool delegate for this district is being held, the contestants being Jacob Christensen of Sedgewick, James Jackson of Irma and Lawrence Lansing of Viking.

Pool members will receive post card ballots, and these should be mailed to head office at Calgary before August 18.

LEGION MEETING DATE CHANGED TO JULY 8

The regular meeting date of the Irma Branch of the Canadian Legion has been postponed to July 8.

Wedding Bells

LIKNESS - ANDERSON

A lovely wedding was solemnized at the Bethany Lutheran Church on June 21 at 3:30 p.m., when Doreen Ellen, youngest daughter of Mr. and Mrs. Alfred Anderson, Donalds, became the bride of Lawrence Oscar Likness of Irma. The double ring ceremony was performed by Pastor S. J. Rude and Pastor Joe Rostad under a pastel colored arch with wild roses and a white bell at the top.

A song "O Perfect Love" was sung by the congregation.

Given in marriage by her father, the bride looked lovely in a floor length white satin gown with train, fashioned with lace yoke and peplum, full skirt and lily point sleeves. The full length veil misted from a beaded coronet. She carried a white Bible with streamers and red roses. Her jewelry was a three strand pearl necklace and matching earrings, gift of the groom.

Miss Nora Moffat, friend of the bride, was maid of honor. She wore a gown of blue taffeta, trimmed with gold sequins with matching elbow length net gloves and braided headbands. She carried a bouquet of pink and white carnations.

Miss Norma Likness, sister of the groom, and Miss Doreen Moen, a friend of the bride, were bridesmaids. They wore yellow taffeta and pink marquisette gowns respectively, with matching elbow length net gloves and braided headbands. They carried bouquets of blue and white carnations.

Flower girls were Karin Johnson and Faye Odegard, nieces of the bride. They wore floor length dresses of yellow and mauve nylon marquisette respectively. They carried nosegays of sweet peas and wore a halo of matching sweet peas.

The best man was Orville Likness, brother of the groom. Wallace Anderson, brother of the bride and Hans Nordmark, friend of the groom, were ushers.

Eula Haukedal played the wedding music and Richard Skjottstad sang "Crown with thy Benediction." Mixed spring flowers decorated the church.

A reception was held in the church basement for about 150 guests. The bride's table was centered with three tiered wedding cake topped with a miniature bride and groom. The cake was baked by Mrs. Hjalmer Odegard, sister of the bride and decorated by Mrs. Everett Hagan. Candles also decorated the table. Pastor Joe Rostad proposed the toast to the bride, to which the groom also responded. Telegrams of congratulations were received from Mrs. O. M. Gaurile, Vancouver, grandmother of groom, Mr. and Mrs. W. Christensen, Kinzua, Pastor and Mrs. E. K. Rostad, Chaplin, Sask., Class of 52A Misericordia Hospital, Jean Lyseg and Esther Olsen, Rotterdam, Holland.

For the occasion, the bride's mother, Mrs. Anderson, chose a grey crepe dress with black accessories and a corsage of white carnations and red rosebuds. The groom's mother, Mrs. Likness, chose a pale blue nylon figured dress with white accessories and a corsage of white carnations and red rosebuds. The bride's bridesmaids, Mrs. Likness, chose a pale blue nylon figured dress with white accessories and a corsage of white carnations and red rosebuds. The groom's bridesmaids, Mrs. Likness, chose a pale blue nylon figured dress with white accessories and a corsage of white carnations and red rosebuds.

After the reception the happy couple left for a short honeymoon to Banff.

For travelling the bride chose a navy gabardine suit with white accessories and a corsage of red roses. Pastor and Mrs. Likness will make their home in Port Arthur, Ont., where Pastor Likness will serve "Our Saviour's Lutheran Church."

The groom is a graduate of the University of Sask. and recently graduated from Luther Seminary in Saskatoon. The bride graduated early this spring as a nurse at the Misericordia hospital, Edmonton.

Out of town guests were: Mrs. E. Wills and Donnie of Vancouver, Leonora and Viola Lae, Mr. Sam Boettcher, Mr. and Mrs. Edwin Anderson and Terry, Mrs. Lorenz Adum, Miss Ella Haukedal, Miss Pearl Marlock, Miss Doreen Moen,

Miss Nora Moffat, Miss Francis Bray, all of Edmonton; Mr. and Mrs. G. Likness and Arthur of Fabyan, Mr. and Mrs. Oscar Likness and Orville and Norma, Mrs. D. Likness, Mr. and Mrs. R. Erickson, Mr. and Mrs. O. Raasak, Mr. and Mrs. C. Gulbraa, Mr. and Mrs. M. Reitan, Mr. and Mrs. G. Pedel and Pat; Mr. Oren Spring, Mr. Gordon Hollinger, all of Irma.

Mr. and Mrs. H. Lae and Mr. and Mrs. T. Likness, all of Viking; Mr. and Mrs. Charles Johnson and Doreen, Mr. and Mrs. B. Likness and Leona and Ruth, Mr. and Mrs. Anton Olsen, Mr. and Mrs. Ole Madison, Mrs. Gertrude Olsen, all of Camrose; Pastor and Mrs. J. H. Rostad, Mr. and Mrs. Arnt Moe and Darlene and Lois, Mrs. Adolf Moe and Adlene, Mrs. Annie Erickson, all of Armoria; Mr. and Mrs. F. Melness of Henschelville, Sask.; Mr. Hans Nordmark of Margo, Sask.; Miss Miriam Pavi of Regina, Sask.; Pastor and Mrs. S. J. Rude of Edberg, and Mr. and Mrs. Roy Anderson and family of Red Deer.

Daytime Use Of Sun Glasses Can Reduce Night Accidents

Reduction of night vision as a result of exposure to sun glare during the day may be the cause of many night accidents, according to an article in the latest issue of *Headlight*. The Health League of Canada magazine quotes Dr. Robert H. Peckham of Temple University School of Medicine as saying that after a day's drive in the sun, 50 per cent. of all motorists may require nearly twice as much light as usual to see normally with their headlights.

Dr. Peckham's statement is based on wartime experience and postwar research. He quotes exhaustive tests made on a group of 24 drivers near Phoenix, Arizona, last summer. After a day's drive in moderate sunlight, without using sun glasses, evening light was only 60 per cent. effective for half the drivers; and for a quarter of them, evening light was only 40 per cent. as effective as usual. Over half of the available light was useless to them because of loss of retinal sensitivity.

The results of Dr. Peckham's research can be put in terms of a hypothetical night driver who is travelling along at 50 miles an hour. At this speed, a car with good brakes can be stopped in 192 feet, including the driver's reaction time and the braking time. Assuming there is an obstacle just visible in his headlights beams at 192 feet, this driver could accordingly stop in time to avoid it. If his night vision were normal, but if he had been out in the sun all day without sun glasses, his retinal sensitivity would be reduced so that, on average, to a point where he could not perceive the same obstacle until he was within 150 feet of it. Allowing for the required 192-foot stopping distance, he would therefore overrun the obstacle by 42 feet.

If this hypothetical driver were among the ten per cent. whose night vision is most severely affected by sun glare, however, he would have to be within about 95 feet of the obstacle before he could stop it. Yet he would not be able to stop until he was 97 feet beyond it—which means, of course, that he would probably have smashed into it while still travelling at a substantial speed.

North Dakota Oil Find Draws Interest

NEW YORK.—The oil industry drilled 45,000 wells in the United States last year. But the one that made the greatest splash—in and out of Wall Street—was a wildcat on a farm near Nunda, N.D., a year ago.

It flows a nice 350 barrels of crude oil daily—an insignificant amount in the 6,500,000 barrels the U.S. pumps in a day.

But in its last year that wildcat has turned the eyes of stock traders toward shares of a railroad, a match company, an electric utility and investment firms as well as a large number of oil companies, some of which already have and some who haven't yet struck oil in the area but have paid out \$500,000 to lease land there.

Stock traders here and in Toronto are interested because the successful wildcat showed—after 30 months of vain and costly search—that there is oil in the vast Williston Basin, lying to the east of the Rockies and stretching from South Dakota into Canada.

Every corporation that owns land in that basin, or owns stock in companies that do control land, suddenly looks good to Wall Street.

Farmers in that one-time dustbowl have been happily and profitably leasing oil rights to their lands. Some farmers who offered during the dust storms of the 1930's to sell their land for as little as 50 cents an acre now sell oil leases for as much as \$1,500 an acre.

As far away as the St. Paul-Minneapolis and the Duluth-Superior areas men are talking of the chance of these places becoming important oil refining centres. If Williston Basin develops in the oil field some expert, and attains Alberta's 1950 production level, the Federal Reserve Bank of Minneapolis says "about \$10,000,000 would be paid annually in royalties" alone, not to mention additional money spent by the oil companies and workers.

Yet caution caution that, promising as it seems, Williston Basin still must be classified as a hope, not yet a fulfillment. The Oil Information Committee of the American Petroleum Institute notes: "There is a long, long way to go before the new field is established as a major producing centre."

But the well near Toga showed the way. And in the year since, 22 wells scattered from Montana through North Dakota and into Manitoba have found oil in the basin—a sedimentary trough, 400 miles long by 300 wide and as much as 14,000 feet deep in places. Geologists call it an old sea or lake bottom and some think its formations are extensions of those that proved so oil productive in Alberta to the northwest.

The Arizona research also indicated that the wearing of ordinary sun glasses during the day would protect the eyes from glare, and therefore from its adverse effect upon night vision.

"Sun glasses of any type, at any price, of any color," Dr. Peckham said, "will be helpful to automobile drivers if they are worn during the day and thus protect the retina and prepare it for the difficulties of seeing at night with the automobile headlights."

The Health League magazine notes that the American Automobile Association has taken an active interest in Dr. Peckham's findings on sun glare, since more than half of all highway accidents occur at night, and since visual deficiencies must be a significant factor in some of them.

Well Preserved Dames Discover 2,000-Year-Old Man

COPENHAGEN, Denmark.—Dames probing the interior of their 2,000-year-old man have decided that he possibly suffered from liver trouble. The well-preserved corpse from Iron Age, recently found in a swamp in Central Jutland, was given a post-mortem examination at the prehistoric museum at Aarhus.

Archaeologists already have decided that the man died from multiple injuries he suffered when he was sacrificed to the Nordic goddess of fertility. After the rites, the body was lowered into the peat swamp, which preserved it.

Examination of the liver, Dr. Willy Munch of the museum staff said, showed it was diseased. Munch said it was the best preserved antique corpse he knows of, and the "hair, nails and even fingerprints are virtually indistinguishable from those of a living man."

QUEEN MARY, who has seen six reigns, two World Wars and vast social changes in a lifetime spanning the Victorian, Edwardian and Georgian periods, celebrated her 85th birthday Monday, May 26th. Since the King's death, Queen Mary has allowed the pace of her life to slacken only slightly. She still follows current affairs with close attention and has started embroidering another carpet, similar to that bought by Canada's Imperial Order of the Daughters of the Empire.

Decoratively SPEAKING (By Francis James)

Canadian Houses Are Alike Outside? But Must They Be Alike Inside Too? We received a letter from a much distressed homemaker the other day. The homemaker was bemoaning the fact that she lived in a new modern bungalow in a district where there were hundreds of other homes all built in much the same style. Now, the homemaker was not worried so much by the fact that all the homes resembled one another on the outside, for that seems to be necessary today in moderate and low cost housing, but she complained about the fact that these houses also looked alike inside.

Madam, I agree with you . . . and I weep with you over this very sad situation. How dreadfully dull it is to walk into home after home and find plain painted walls, plain or carved bedroom rugs, large floral patterned draperies, chesterfield with matching end tables and lamps, coffee table, easy chair, tri-lamp, and radio gramophones. We either have these standard items or we hope to purchase them in the near future. You strange it is that we should all have or want the same furnishings. You know the old saying "where all think alike, no one thinks very much".

I'll grant you that most homes require a certain number of these basic furnishings. I'm not for the minute suggesting that you throw away all your furniture, buy large fluffy cushions and announce to your astonished friends that you are following the old oriental manner and would they please take a seat on the floor.

Well, you ask . . . give us some answers. What can we do to make our homes look individual? Here we have some ideas that may help. First of all . . . those plain painted walls. Why not try a little wallpaper. In the front hall and dining room use a large bright splash pattern.

In the living room a textured plain wallpaper, upstairs in bedrooms choose masculine ships and plaids or dainty floral papers to suit the individual tastes. Remember that today's wallpapers are washable. After washing you will have no nasty streaks to contend with. If you are one of these "doubting Thomases" who not pay a little more and buy a plastic coated wallpaper that can be washed hundreds of times with

soap and water. Grease, lipstick and crayon marks can be removed with turpentine. Wallpaper will give your home that different look as well as a warm comfortable homey appearance.

Now about the furnishings of the home. When buying additional chairs for your home, why not take a look at some of the antique sales in town. You may be able to pick up a beautiful old boston rocker, a dainty but comfortable Victorian ladies' chair or a pretty little occasional chair. It won't cost you any more . . . in fact, you will probably save money on it and it will help add a different note to your room.

Try combining different woods in the same room. Why must we always buy whole suites of bedroom and dining room furniture? Your home will be far more interesting and much more your own, if you have the time and talent to search for some odd pieces of furniture. Mind you, it is easier said than done but I'm offering it as a suggestion only.

Another point we might consider is the chesterfield. Do you really need it? Many homes in the old country, you know, do not use chesterfields. Well, on this continent, feel that a living room is not furnished if it hasn't a chesterfield, couch or sofa. If someone in your family likes to stretch out on it after meals or if it is used to sleep occasional visitors, then you have an excuse for a chesterfield. But if it is used exclusively for sitting, might not individual chairs serve the purpose just as well or better?

Pictures can make a tremendous difference to your room. Try gathering a group together on a large wall, eliminating them from smaller wall spaces. The pictures need not be the same size, frame, subject nor colouring . . . but must be hung with an equal space between each.

These are only a few ideas which may or may not appeal to you. They may start you thinking along similar lines and will come up with some quite different ideas of your own. Or, it may leave you feeling that you are quite happy having a home just like every one else's . . . and that all these ideas require more effort than they are worth. The important thing is that you should be happy with the home you create for family living.

THE CANAL THAT SPLITS EGYPT

—Little, In The Nashville Tennessee.

Rain-Making Again Is Big Project For Western States

DENVER, Colo.—Rain-making again is a big thing this year in the western United States. Around 200,000,000 acres already are targeted for rain-making so far this summer. Projects last summer covered something like 300,000,000 acres. Predictions are for a 1952 summer total of 400,000,000 acres.

Weather modification efforts cost an estimated \$2,000,000 to \$3,000,000 last year.

If, as some say, the average cost of rain-making is a cent an acre, this year's work would be \$4,000,000 for 400,000,000 acres.

Those who back weather modification—farmers, ranchers, power companies and communities—appear to be considerably more selective this year. They still want attempts made to increase moisture fall. But things seem calmer than in last year's big rush.

Seeding methods remain about the same. Dry ice, silver iodide and other compounds are spread from planes and ground generators.

No one knows for sure whether rain or snow has been increased in vast reaches of the west as result of cloud seeding.

Colorado A. and M. College and Oregon State College investigators undertook some checking and concluded generally there was no apparent increase in precipitation or significant departure from normal in the projects studied.

However, the studies were comparatively short term. Meteorologists, physicists, rainmakers and those who back the projects want long-range studies to evaluate results. Some already are under way.

"The greatest need is comprehensive study, based on sound scientific principles, which will determine the practical possibility and make available for publication, without bias, the record of failures as well as successes in cloud seeding," said Dr. Harry Wexler of the U.S. Weather Bureau.

Dr. Vincent Shaeffer, regional electric research chemist whose experiments seed modern-day rain-making in motion, sounded a middle-of-the-road view.

"Now it will be up to the farmer, I think . . . whether or not we have just another experience like we have had so many times in the past when so-called rainmakers would drive up with their covered wagon . . . start out some evil-smelling chemicals, and then take credit for anything that might happen along about that time."

"I personally think we are beyond that stage. I think we know enough about precipitation mechanism that if we want to, we can eventually do most anything we want with the weather (but . . . we are not going to get very far unless every one is willing to go at it in the right way."

Mr. Shaeffer said that everything is fine at home, "the trouble" is that he can put his heart and mind to his job. Only when his mind is free of worries can he think clearly and quickly."

She offered this recipe for a happy marriage:

"Put your husband first. Let him know he is the lord and master of his house and not just the man that brings home the pay and supports you. Try to understand your husband and see things from his point of view. Not to be a nag, but to make up to him on matters that are really important, wait until he is rested and in the right frame of mind. After the disagreement, be the first one to make up. It hurts a man's pride to admit he was wrong."

Says Worry-Free Mind Needed For Safety On The Highways

TORONTO.—Mrs. D. J. McArthur, of Hamilton, Ont., whose husband operates an Ontario Highways Department snowplow in winter, has written an essay contest with the theme that a worry-free mind is needed for highway safety.

The contest was sponsored by the Motor Vehicles Safety Association of Ontario. Mrs. McArthur's essay was intended to show how wives can help husbands who operate motor vehicles for business or pleasure come home in one piece.

The Simcoe County farm wife, born in Helsinki, Finland, will receive her prize at a dinner.

"A husband needs to go off to work happy and content both mentally and physically, secure in the knowledge that everything is fine at home," she wrote.

"No man can ever be noble who thinks meanly or contemptuously of himself and no man can ever be noble who thinks first and only of himself."—W. H. Dallinger.

Think truly, and thy thoughts shall be a fruitful seed; Speak truly, and each word of thine shall be a fruitful seed; Live aright, and thy life shall be a great and noble creed.

—Horatius Bonar.

Who is well born? He who is by nature well fitted for virtue.—Seneca.

Another air survey takes place in northern Alberta where an airborne magnetometer survey will be carried out.

The largest number of parties, 15, will work in British Columbia where exploratory interest in base metals is at an all-time high, the department said. The work also will include studies of dam sites in the Columbia River and Miss Creek-Columbia River areas relative to flood control.

Parties will continue to map the uranium belt in the goldfields area of northern Saskatchewan. They also will carry out special studies of the uranium and deposits.

Two parties will start mapping of the seal lake area east of the Quebec-Labrador iron belt where occurrence of copper and other base metals have been reported.

THREE-LEGGED DUCK BORN ON B.C. FARM

EDMONT, B.C. — A three-legged baby duck, one of all his fellows is wandering about the farm here of Capt. and Mrs. Harold Kennard. The little one was found for walking and the three legs of the duck.

His owners can hardly wait for his first swim.

GEMS OF THOUGHT

NOBILITY

Be noble! and the nobleness that lies in other men, sleeping, but never dead. Will rise in majesty to meet thee own.

—James Russell Lowell.

There is a saying of the ancient Greeks: No noble man thought, however buried in the dust of ages, Can ever come to naught.

—John Godfrey Saxe.

The sublime summary of an honest life satisfies the mind, creates a cheerful good, and bathes it in the cool waters of peace on earth; till it grows into the full stature of wisdom, reckoning its own by the amount of happiness it has bestowed upon others.—Mary Baker Eddy.

No man can ever be noble who thinks meanly or contemptuously of himself and no man can ever be noble who thinks first and only of himself.

—W. H. Dallinger.

Think truly, and thy thoughts shall be a fruitful seed; Speak truly, and each word of thine shall be a fruitful seed; Live aright, and thy life shall be a great and noble creed.

—Horatius Bonar.

Who is well born? He who is by nature well fitted for virtue.—Seneca.

HERE'S HEALTH

Whooping cough, diphtheria too

Do not need to trouble you

If your child has been protected

And immunization not neglected.

Dept. of National Health and Welfare

History Highlights Recorded In Papers Of Three Centuries Ago

CALGARY.—A fascinating treasure of great historical value—a collection of newspapers dating back to 1588—was unearthed here recently when George Michael of Calgary examined his father's effects. The papers, wrapped in tattered brown manila, had belonged to his father, George Michael of Mossesburg Inn, Harwick, Scotland. He died last year at the age of 85. Mr. Michael brought the effects back from Europe.

The earliest paper was a copy of the English-Mercure dated July 23, 1588. It described the battle of the Spanish Armada. An extract reads: "Capt. Fleming, who has been ordered to cruise in the chops of the channel, for discovery, brought aboard into Plymouth that he had destroyed the Spanish Armada near Lizard."

The Intelligence for the week ending Feb. 5, 1649, reads: "Tuesday, Jan. 30th—this day the king was beheaded over against the banqueting-house, Whitehall... (King Charles I) go from a corruptible to an incorruptible crown, where no disturbance can be."

The News of July 6, 1665, a copy issued during the great plague, contains the following paragraph: "That every house visited be marked with a red cross of a foot long in the middle of the door, evident to be seen with the printed words that that is to say, Lord Have Mercy Upon Us."

Apparently all contacts with infected houses were to be confined in their homes for 20 days. A copy of the London Gazette for Sept. 3, 1666, describes the beginning of the Great Fire of London.

"On 2nd instant, at one of the clock in the morning, there hapned to break out of and deplorable fire in Pudding-Lane near New Fish street which... spread itself so far before day... that care was not taken for the timely preventing the further diffusion... It fell off most unapparently too, that a violent easterly wind fomented it."

An issue of The Times for Jan. 26, 1793, prints the following words in a letter from a spectator of the execution of Louis XVI of France: "His Majesty then said: 'I pardon my enemies. May my death be useful to the nation.' The executioner then placed him to be beheaded. The king recoiled and said: 'Another moment that I may speak to the people.' The aide-de-camp to the commandant, Sautere, then said to Henri Sanson, the executioner, 'do your duty.'"

Also included in the collection are copies of The Gazette for 1588, giving an obituary on the death of Oliver Cromwell and The Times of July 3, 1797, giving an account of the execution of Richard Parker, leader of the mutiny off the Norfolk. The Times of Oct. 8, 1789, publishes the dispatches of the Battle of the Nile and that of Nov. 7, 1805, prints an editorial on the Battle of Trafalgar and Nelson's death.

University Students Receive Geographical Scholarship Awards

OTTAWA.—Six university students, from Manitoba, one from New Brunswick, two from Ontario, and two from England, have won the 1932 Geographical Scholarship awards of the Canadian Geographical Society, Gordon M. Dalrymple, Executive Secretary of the Society announced.

Names of the successful candidates, selected from a group of 22 applicants, are as follows: John R. Main, Winnipeg; R. Spencer Inch, Hampstead, N.B.; H. A. Smith, Toronto; Keith G. Bain, Hamilton; Eric H. Brown, London, England; and Barbara L. Fenton, Tunbridge Wells, England.

The awards, valued at \$250.00 each, are made by the Society as part of its activities in encouraging academic work in the geographical field. The awards were made this year to students rather than to institutions and were increased in number and in value in keeping with the national character of the Society itself.

One of the provisions of the awards, Mr. Dalrymple said, is that the successful candidates will be permitted to study at Canadian Universities of their own choosing. As a result, three of the winners will do post-graduate work at the McGill Geographical Summer School, St. Lawrence, Quebec; one will do post-graduate work at the University of Western Ontario Summer School, London, Ontario; one will do post-graduate work at the University of Toronto, and one will complete a B.A. degree at McMaster University, Hamilton.

The Geographical Society was established to promote both academic and general interest in geographical matters, Mr. Dalrymple said. In addition to sponsoring the geographical awards, it has provided substantial financial support to numerous research and exploratory undertakings. Its main educational work is carried out through its monthly magazine, the "Canadian Geographical Journal."

Selection of candidates for the geographical awards, he said, was made under some difficulties because of the "very high calibre" of all the candidates. He said the interest shown by students and by education authorities throughout Canada in the awards indicated that the 1932 scholarships would be keenly competed for.

Dr. J. W. Watson, Director of the Geographical Branch, Department of Mines and Technical Surveys, Ottawa, was chairman of the Scholarship Committee which made its recommendations to the Society's Board of Directors.

Whooping Cough

Whooping cough in its early stages is somewhat deceiving. It starts with a cough and runs on, at which time it is most contagious. When whooping starts and the child is repeatedly thrown to his stomach, it is almost certainly whooping cough, an infection of windpipe and bronchial tubes. This disease, preventable by immunization, may leave scars after effects and requires a doctor's immediate attention.

HAD THE REMEDY

He was driving her home from the dance. It was midnight, pitch dark, and the road was lonely. Suddenly she can't stop and the young man having looked it over to see what was the matter, turned to the girl and said: "How unfortunate. The gas tank seems to be full of water and we can't move an inch."

The girl sighed and said: "Come inside—this has happened to me before. All we have to do is sit and argue for a time and the water turns back into gas."

OLYMPIC TRIALS POOL at Verdun, Quebec, is ready for the summer re-opening. This famed swimming hole is known as the Natatorium.

Sask. Provincial Parks Facilities Being Expanded

REGINA.—A fairly extensive program of expansion and improvement of facilities is slated for Saskatchewan's seven provincial parks this year.

New cabins, boats, electrification of buildings, improvement of golf courses and construction of fire-guards are included in this year's work program, as announced recently by A. Campbell, provincial parks director. Two of the major projects will be electrification of Cypress Hills Provincial Park and construction of a new clubhouse for the golf course at Kenosau.

A power line from Maple Creek will be built 25 miles south to the Cypress Hills park and, besides serving the park itself, will serve between 16 and 20 farms en route. This electrification project, Mr. Campbell said, is expected to be completed by the beginning of the tourist season.

At Kenosau, the new golf clubhouse will measure 24 by 34 feet and will include lockers and a caddy-house. The clubhouse will be finished on the outside with imitation log siding and inside with plywood. Parking space at Kenosau will also be enlarged, and four more cabins will be converted to light housekeeping log cabins, bringing the total to 14.

At Greenwater Lake, four more two-room 16 by 20 cabins will be built, with imitation log siding and plywood finished interior.

At Madge Lake, plans call for the construction of 16 miles of new fire-guard, and improvement and seeding of four fairways on the golf course. A walk-in refrigerator will also be installed in the dining hall.

Throughout virtually all the provincial parks there will be considerable landscaping, painting, general repair work and improvement to buildings. New boats will be added at Madge and Greenwater Lakes, bringing the total number of boats available for rent at each to 55.

"A Country Editor"

Have you ever considered why you see the "editorial we"? From the Addition (V.I.) Independent comes this reprint from a 100-year-old paragraph printed in the Williamstown Advocate.

It says: "A Country Editor—is one who reads newspapers, selects miscellany, writes articles on all subjects, sets type, reads proof, folds papers, and sometimes carries them, cuts wood, works in the garden, talks to all his patrons who call, patiently receives blame for a thousand things that never were and never can be done, gets little money, has scarce time and materials to satisfy his hunger, or to enjoy the quiet of nature's sweet restorer, sleep, and outcane himself peculiarly happy if he is not assaulted and battered by some unprincipled demagogue..."

"A man who does this and all much more, not here recorded, you will know must be a rather busy animal; and as he performs the work of so many different persons, he must justly be supposed their representative, and to have an indisputable right, when speaking of himself, to use the plural number; and to say 'we' on all occasions and in all places."

WILLING TO OBLIGE

A 30-year-old Chinese taxi driver in Singapore recently married two girls at the same time in a Chinese ceremony. The groom said his marriages "had nothing to do with love." He explained that he married his "No. 1" because it was his father's last wish. His "No. 2" had been engaged to his brother, but since the engagement was broken off, he felt it was his "duty" to support her.

ELEPHANT WINS TUG-OF-WAR

DURHAM, England.—An elephant defeated a team of local university students in a tug-of-war. The umpire, a university professor, said "calculations must have gone wrong somewhere" as the elephant tugged the eight students across the arena.

:: APPETIZING RECIPES ::

Here's an appetizing, hearty supper salad that's stocked with minerals and vitamins. It's made up of Tomato Apple, slices of Ham and Egg Loaf, and Carrot Salad, each dressed in a crisp lettuce cup. Served with Cheese Biscuits and good, hot tea or coffee, it's fine fare when you are hungry.

HAM AND EGG LOAF

Three ounces cream cheese, 1 three-ounce can deviled ham, 6 hard-cooked eggs, finely chopped, 2 tsp. chopped parsley, 2 tsp. lemon juice, 1 tsp. onion juice, 1 teaspoon Worcestershire sauce, 1/2 tsp. prepared mustard, dash of tabasco sauce, 1/2 tsp. pure monosodium glutamate, salt and pepper to taste.

Place cream cheese in a bowl and mash with a fork; blend in deviled ham. Add all remaining ingredients; mix well. Line a 9 x 3 x 2-inch loaf pan with waxed paper; pack salad mixture firmly into pan, smoothing top surface with the back of a spoon. Chill overnight.

TOMATO ASPIC

One package instant flavored gelatin, 1/2 cup hot tomato juice, 1 tsp. lemon juice, 1 tsp. grated onion, salt and pepper to taste.

Place gelatin in the hot tomato juice. Stir in remaining ingredients. Pour into mold and chill until firm.

Chill until firm.

RAW CARROT SALAD

Two cups grated raw carrots use medium blade of vegetable shredder, 1 cup chopped celery, 2 tsp. minced parsley, 2 tsp. lemon juice, 1 tsp. onion juice, 1 tsp. vinegar, 1/2 tsp. salt, 1/2 tsp. pure monosodium glutamate, salt and pepper to taste.

Combine all ingredients in a bowl; mix well. Chill for several hours to blend flavors. To assemble salad plate: Place 1 lettuce cup on each of 4 luncheon plates. Unroll 1 Ham and Egg Loaf; remove paper with a sharp knife, cut into 3 slices. Place 2 slices in a lettuce cup on each plate. Sprinkle with monosodium glutamate and a sprinkling of salt. Garnish with a slice of carrot. Read some of the Raw Carrot Salad in the remaining lettuce cups. Serve at once. Serves 4. Delicious with cheese biscuits and hot tea or coffee for a luncheon.

"Quickie" Meals Are Easy To Prepare

Any career girl of necessity becomes an expert at preparing "quickie" meals. A busy friend says mushroom soup is her saving grace when guests arrive. She pours it on practically every meat dish, but has found it particularly tasty on pork tenderloins.

The uncooked tenderloin is cut in small pieces and browned in a frying pan. Then the mushroom soup, unthinned, is poured out of the can and on to the meat. Unstirred, it is popped into the oven to simmer slowly until the dinner hour.

She usually serves this with hot baked potatoes. Her second vegetable, if the time of the year probably would be asparagus. A tossed salad completes the main part of the meal.

Jubilee guilds of Newfoundland and Labrador offer an interesting supper-dish called eggaroni.

Ingredients: two tablespoons butter; two tablespoons flour; two cups milk; one tablespoon horse-radish (if desired); two teaspoons minced onion; 4-6 hard-cooked eggs (quartered); two cups cooked macaroni; salt and pepper.

Melt the butter and blend with the flour. Four in the milk and cook over a slow heat, stirring constantly until thickened. Add horse-radish, onion, eggs and macaroni. Season with salt and pepper. Serve on toast.

The Jubilee guilds give the following hints for baking cakes and cookies:

1. Be certain the oven is at the proper temperature when the cake is ready to be baked.

2. A wooden spoon is more suitable for beating than a metal one.

3. Use fine granulated sugar. If coarse granulated or brown sugar is used it should first be pressed through a sieve.

4. Fruits should be thoroughly cleaned and dried. Cakes made with the use of moist fruit.

5. Sift the flour before measuring.

6. Place the cake near the centre of the oven and don't open the door until the cake is set (about 15 minutes).

7. Test whether cake is baked by pressing lightly with fingertips. If it feels firm and does not retain the imprint of the fingers it is baked.

8. To substitute cocoa for chocolate, use the following proportions: One square of chocolate—three tablespoons cocoa and one teaspoon fat.

9. Melt chocolate over hot water rather than over direct heat since chocolate burns easily.

Skin milk parties are becoming popular in Saskatchewan, says the Canadian Association of Consumers. When producers and distributors recently asked for an increase in the price of milk, workers of the C.A.C. Saskatchewan branch, decided to promote the use of skim milk.

Teas were held when the uses of skim milk and skim milk powder were discussed and demonstrated. Skim milk was used in the cakes and jams served.

C.A.C. members found that powdered skim milk cost about 10 cents a quart mixed. They found it easy to use and to store.

Canadian Fashion

Quick Canadian Quiz

1. What percentage of Canadians are urban dwellers?
2. Of Ottawa's estimated \$4270 million spending this year, how much is for defence? How much is for social security?
3. How many Canadians live in the Yukon and Northwest Territories?
4. What one industry employed more than 100,000 Canadians last year?
5. By area, rank Canada, continental U.S.A., Brazil.

For the shorter fuller figure! No altering worries in this size! No sewing worries either—a simple step-in style with slenderizing details. Embroidered by hand or machine! Pattern 17342; transfer and tissue pattern in Half-Sizes 14 1/2, 16 1/2, 18 1/2, 20 1/2, 22 1/2, 24 1/2. Size 18 1/2 takes 3 1/2 yards 35-inch fabric.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Winnipeg Newspaper Union, 60 Front Street W., Toronto. Be sure to write plainly your Name, Address and Pattern Number.

Exciting! Our 1932 edition of Alice Brooks Needlecraft Book! Brimful of new ideas, it's only twenty-five cents. It contains illustrations of patterns of your favorite needlecraft designs, plus SIX easy-to-do patterns printed right in the book.

Smile Of The Week

CORRECTION

In the grammar class one day, the teacher wrote on the blackboard: "I didn't have no fun at the seaside." Then she turned around and the pupils and said to one: "Roland, how should I correct that?"

"Get a boy friend," he answered.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. Canada, Brazil, continental U.S.A. 3, 25,000, 1. 60 per cent. 4. The primary textile industry. 2. For social security, one billion dollars; for defence, two billion dollars. (Material supplied by the editors of Quick Canadian Facts, the handbook of facts about Canada.)

ATTENTION PASSENGER CAR OPERATORS

Section 41a—(1) of The Vehicles and Highway Traffic Act reads as follows:

"No person shall drive any motor vehicle registered pursuant to this Act unless—
(a) the motor vehicle has been inspected within twelve months; and
(b) a certificate of approval has been issued pursuant to this section."

All Authorized Testing Stations have now been provided with certificates and wind-shield transfers to cover the ensuing twelve month period commencing July 1, 1952. The attention of motorists is particularly called to the fact that certificates of approval which they previously obtained are only valid for a period of twelve months from the date of issue.

Kinsella News

FREDERICK HAJEK

Funeral services for the late Mr. Frederick Hajek of Kinsella who passed away on June 18, age 69 years, were held on Monday, June 23 at 10:30 a.m. at Hainstock's Funeral Chapel. The Rev. Wesley Bainbridge officiated and interment was made in the Mt. Pleasant cemetery. The pall bearers were Messrs. Frederick Hajek, Emil Hajek, Jerome Hajek, George Hajek, Albert Hajek and Milton Hajek.

Beautiful floral tributes were received from: the loving family; John, Verda and Virgil Niddrie; Dorothy and Jack Chalmers; Rose and Stan Niddrie; Mr. and Mrs. Justik; Mr. and Mrs. Lundy Bell; Corbett family; Edgar Lamont; Mr. and Mrs. E. Williams; Mrs. Victoria Vola and family; Leora and Tony Nugent; Red and White Store; Mr. and Mrs. F. Walz; Barker and Brown; Canadian Legion, Tilbury, Ont.; Mr. and Mrs. C. Turnbull; Bill and Eileen Horinek; Van Horne School Staff, Vancouver.

He is survived by his loving wife, six sons, Frederick of Hythe, Alta.; Emil of Medford, Oregon; Jerome, George and Albert of Vancouver and Milton of Tilbury, Ont.; three daughters, Mildred of Vancouver, Mrs. Roy Kennedy of St. Agathe, Quebec, Mrs. Ronald Niddrie of Edmonton and one brother, Godfrey, of Baltimore.

The Rev. F. Forster preached his farewell service on June 29. At the conclusion of the service Mr. R. Cormack presented Mr. and Mrs. Forster with a purse of money from the congregation of the church, for which Mr. Forster gave a very gracious thanks on behalf of Mrs. Forster and himself. At the close a buffet lunch was served.

Miss Patricia Carpenter had as her guest for a few days her school friend Miss Betty Armitage.

Donations to the Church Improvement Fund in memory of Mr. F. Hajek: Mr. and Mrs. C. Arkinstall; Mr. and Mrs. R. Cormack; Mr. and Mrs. F. Long; Mr. and Mrs. J. McKie; Mrs. R. Stevens.

discussion on the August 6 Sports Day. A good attendance is requested.

Born to Mr. and Mrs. R. H. Simmerman (the former Stella Arner) at Edmonton on July 2, a daughter.

MASSEY-HARRIS The Greatest Name in Combines

This year when binders are out of production and help is scarce, you would be wise to choose a combine to harvest your crop. And when you think of a combine you naturally think of Massey-Harris, who have been building combines since 1901. Year after year, Massey-Harris engineers have been steadily improving and adding new features that make their machines truly the best value in combines. Massey-Harris make the largest capacity combine on wheels—on down to the smallest 6 ft. Clipper model, these machines feature all the designs that make them the most popular in the field.

RIGHT NOW is the time choose a combine to harvest your crop—before the steel strike cuts off supplies or forces the price upward. Remember the slogan—

"Coast to Coast, Massey-Harris Offers Most"

For any combine requirement, call on us.

Alberta Wheat Pool Patronage

The Alberta Wheat Pool intends to operate for the crop year 1952-53 on a patronage dividend basis in keeping with the co-operative principles on which the Pool was formed. The following notice is published in compliance with the provisions of "The Income Tax Act":—

"As required by 'The Income Tax Act' this will advise our members that it is our intention to make a payment in proportion to patronage in respect to the year ending the 31st day of July, 1953, and we hereby hold forth the prospect of a patronage payment accordingly."
